COERCION IN THE SENATE.

News comes from Washington that resident Cleveland proposes to "coerce" the Senate into paying some attention to the financial needs of the country. City and Brooklyn, whose only hope for By just what means the coercion is to effected is not apparent. Certainly the ordinary and peaceable methods of exercising influence upon a public body must be ineffective against a body so hardened to political villainy, so insensible to public sentiment as the United States Senate has proved to be.

For Mr. Cleveland to take a club upor the floor of the Senate and personally thump into submission the Senators who need coercion would be undignified and probably unconstitutional. However, if he wishes to try it, he can rest assured of the sympathy and moral support of the entire country, which would not allow such a little matter as the Constitution to stand in the way of any course of action that would inject into the Senate a conception of decent states-

Clubbing aside, there seems to be only one way in which this misrepresentative lies in the gen-rous motive body can be induced to consider public duty as superior to private snaps. Unduty as superior to private snaps. Undoubtedly, if a fund of sufficient size were raised, and the Sugar Trust and other Trusts were outbid, the Senate would pass any bill the people want. It is not to be supposed that the Trusts own the Senate in fee simple. It is simply the Senatorial usufruct that they simply the Senatorial usufruct that they have secured. Undoubtedly the Senate have secured. Undoubtedly the Senate work. would really prefer, considerations be- City ing equal, to vote for the people rather

than against them.

We respectfully suggest, therefore, to the President that if he really desires to coerce the Senate into performing a public duty he establish a Society for the Promotion of Public Interests in the United States Senate, and that he himself head a subscription for a Bribery and Corruption Fund to carry out the aims of the Society. That is the sort of coercion to which

the Senate is most susceptible. It will be even better than a club

AFTER SMALL GAME.

There were more "surprises" for the daily audience in the Lexow Committee room yesterday. The famous prige fighters, the champions of the ring, were stroduced into the performance, and the wiry Goff put on the gloves with Bill Brady, and in a few rounds manr year of Lexow would be worth got it.

This is interesting as showing that the police are thrifty enough to look after every opportunity, and have the courage to "strike" a pugilist as well as an unfortunate woman. If Mr. Goff could only introduce the principals, Corbett, Johnson. Fitz and the rest, he would put the Lexow audience under eternal obligations.

But, after all, this is not the sort of 'slugging" the people are waiting anxlously to see Mr. Goff engage in. There is the big Superintendent, Byrnes, whom they have expected to see knocked out in a few rounds. There is the active "Mr. Croker's horses are said to be and scientific boxer, "Jemmy" Martin, worth \$500,000." Oh, Mr. Goff! Where who is ready for a set-to at any time and always comes up smiling. Perhaps this was intended as a sly hit at President Cleveland, who is such an enthusiastic lover of the sport that even at election time he would rather fish than write letters. In other words, he would rather throp a line in the water than drop a line to a campaign commit-

25,000 FITS FOR THE JURY

A jury in Part III. of the City Court has a big job before it. Part of the evidence to be submitted in a suit for the balance due on an advertising bill consists of 25,000 newspapers, and the jury will have to examine them all, it is said. The particular portion of the paper to which the jury will have to devote its attention will tell all about a remedy for fits. How appropriate!

If the remedy is any good at all, some of the jury will survive the series of squint-eyed spasms that this job will throw them into. All papers cannot be as cheerful to the eye and refreshing is acknowledged by its several hundred thousand readers to be. Report that Grace Kimball Is to B. the Lyceum's Leading Lady-

Miss Coghlan's Driver Speaks. In spite of the announcement that Miss Isabel Irving, who has succeeded Miss Georgia Cayvan in the part of Dorothea in "A Woman's Silence" at the Lyceum Theatre, is to be kenceforth known as the leading lady of Mr. Frohman's stock company, it is asserted that Miss Grace Kimball, now with E. H. Sothern, will hold that position next season. Miss Irving does not know this, but Miss Kimball, it appears, has already signed a contract to that effect. is now in Boston, and the uninitiated have wondered at the manner in which she has been "boomed," and have asked each other what it could which she has been "boomed," and have asked each other what it could possibly portend. She has been "interviewed," discussed and ranked with leading women who have done a good deal more to earn their reputation, than this inexperienced but charming and graceful little woman. Miss Irving has been led to believe that she would be the Miss Cayvan of the future, but things theatrical are lamentably uncertain and it is a profession of grievous disappointments. The new leading lady is not to be enved, anyway. Whatever may be said of Miss Cayvan's dramatic abilities, she has undoubtedly endeared herself to the peculiar patrons of the Lyceum Thesatre. They liked her—in fact, with all her faults they loved her still. Poor little Miss Irving—a dainty, winsome little woman—has had a hard time with Dorothea. She has found most chilly audlences. In fact, Sardou's play, instead of being called "A Woman's Silence," might have been entitled "An Audlences' Silence." Several of Fr. Frohman's clever people already hate Sardou, and owe him a grudge, on account of the insignificant parts they have been called upon to play.

The driver of the victoria that Rose Coghian uses on the stage in "To Nemesis" is highly indignant at the criticism in this paper that declared the vehicle to be stationary at the Wings before dashing in front of the audience. He writes—rather inelegantly it must be confessed "You are a fool. Do you want me to drive from Paris to the Star Theatre for your special benefit? The team used in Lillian Russell's play did not stand for some time behind the wings. They telegraph to Russia for it every night. I think you silly. Why, oh why, doesn't Miss Coghian allow this funny gentleman to play a comedy part

It is said that Miss Louise Beaudet is contemplating the production of a new comic opera, or musical comedy, entitled "The Bathing Girl." It sounds rather naughty, but the sound, it is declared, is absolutely misleading, "Jacinta" has been altered and improved, and rewritten by Harry B. Smith, but the book is not felicitous, and it is hard work to make a slik purse out of a sow's ear.

Rudolph Aronson says that work has already been begun on the remodelling of the Casiro as a concert hall. The alterations are to be more radical than those that were made at the last unfortunate attempt to make a vaudeville house of that establishment. Twenty new private boxes are to be put in, and comfortable lounging places are to be made on the first and second floors. Mr. Aronson says that all the people he engaged while in Europe are to sail from the other side Dec. 15, and that the Casino will reopen Dec. 29—the date, by the-by, that is set for the reappearance of the Kendals in "Lady Clancarty" at the adjoining house. It will be pleasant to have Mr. Aronson back in his old home, and if he can only secure the valuable colleague he used to possess—the inimitable Charles Barton—it will be quite like old times.

The "Grass Widow."

The phrase "grass widow," or rather grace widow," for the first has no foundation in fact, is simply a barparism, or fungus, which has attached itself to the English language. "Grace vidow" is a term for one who becomes widow by grace or favor, not of ne essity, as by death, and originated in the earlier ages of European civilizaseldom, and wholly by authority of the law of the French it would read "Veuve de grace," which, in England, gives "widow of grace," or "grace widow,"

"veuve" being translated as "widow." The New Muff.
